

E-mail Survey – GWW Resident Feedback on Bridge/Entry improvement project at FM 1826 & Crystal Hills Drive

Late submissions

2 additional surveys were submitted late Monday, 8/27 after the results had been tabulated. Their results are:

- did not attend a session
- 4% bridge
- importance of bridge – 1

- We did not vote because we did not have enough info about what would happen if there was a flood.
Thanks for your efforts!
